Upcoming Meetings**
2. DTSC        **Hazardous Waste Classification and Universal Waste Rule Training  
Household Hazardous Waste Collections Calendar**
3. SWRCB      **Local Guidance (LG) letter 162  
Revised LG-139-2  
Revised LG-161-2**
4. OES         **Organizational Duty Roster**

### **Cal/EPA**

#### **Summary Report Training**

Cal/EPA has scheduled training on how to complete Summary Reports 1 through 4. [Training sessions are scheduled in June and July 2003](#), and will be held in Los Angeles, San Diego, Alameda/Oakland, Madera, Redding, and Sacramento. Anyone who collects, prepares, or reviews the information contained in the Summary Reports should consider attending.

#### **Surcharge Rates**

On May 23, 2003, new state surcharge rates were published in the [California Regulatory Notice Register](#), commencing a 30-day public notice and comment period. For more information visit the [Unified Program website news page](#).

#### **Upcoming Meetings**

Meeting: Unified Program Administration and Advisory Group

Date: Thursday, June 19, 2003

Time: 8:30 am – 4:30 pm

Place: Cal/EPA Headquarters, 1001 I Street, Sacramento, Room 230

Meeting: Unified Program Roundtable

Date: Friday, June 20, 2003

Time: 9:30 am – 12:30 pm

Place: Cal/EPA Headquarters, 1001 I Street, Sacramento, Sierra Hearing Room

### **Department of Toxic Substances Control**

#### **Hazardous Waste Classification and Universal Waste Rule Training**

DTSC will be conducting Hazardous Waste Classification and Universal Waste Rule training classes in June and July. Online registration will be available. Attached is additional information regarding the training.

#### **Household Hazardous Waste Collections Calendar**

Attached is the monthly household hazardous waste collections temporary events calendar that lists dates and contact information for upcoming temporary collection events for various jurisdictions.

## **State Water Resources Control Board**

### **Local Guidance (LG) letter 162**

Installation And Monitoring Requirements For Underground Storage Tanks Installed on or After July 1, 2003 (<http://www.swrcb.ca.gov/ust/docs/lgs/lg162.pdf>)

The purpose of this LG letter is to answer some common questions that have arisen to date regarding installation and monitoring requirements for underground storage tanks (USTs) installed on or after July 1, 2003 (Assembly Bill 2481 (Statutes of 2002, Chapter 999)).

Although we believe that manufacturers of leak detection and UST equipment are working diligently to develop and obtain approval of their equipment to meet the requirement for continuous vacuum, pressure, or interstitial liquid level measurement monitoring method (H&S Code, Section 25290.1[e]), we recognize that approved equipment will likely not be available by July 1, 2003.

It is our understanding that the Western States Petroleum Association (WSPA) is pursuing legislation that would extend the implementation date of the requirement for continuous vacuum, pressure, or interstitial liquid level measurement monitoring, as well as the requirement for vapor monitoring. If such an extension is enacted, we will update and re-issue this LG letter.

No new UST systems may be installed on or after July 1, 2003 until: (1) new legislation is enacted that extends the implementation date for the requirements for continuous vacuum, pressure, or interstitial liquid level measurement monitoring (H&S Code, Section 25290.1[e]) and for vapor monitoring (H&S Code, Section 25290.1[d]); or (2) the appropriate leak detection and UST equipment is approved to meet the requirements of H&S Code, Section 25290.1.

If you have any questions, please call Scott Bacon at (916) 341-5873 or Erin Ragazzi at (916) 341-5863.

### **Revised LG-139-2**

LG-139-2, local guidance letter on reporting statistical inventory reconciliation results, has been updated: [http://www.swrcb.ca.gov/ust/docs/lgs/LG139\\_2.html](http://www.swrcb.ca.gov/ust/docs/lgs/LG139_2.html)

### **Revised LG-161-2**

LG-161-2, local guidance letter on enhanced leak detection (ELD), has been updated to incorporate changes made by AB 2481 and to add a vendor who performs ELD testing. [http://www.swrcb.ca.gov/ust/docs/lgs/161\\_2.pdf](http://www.swrcb.ca.gov/ust/docs/lgs/161_2.pdf)

### **Inspectors' Workshop - June 17, 2003**

The UST monthly inspectors' workshop will take place on June 17, 2003, at the Cal EPA Headquarters, 1001 I Street, Sacramento.

For those of you who are interested in UST Program training, please check out the following site: <http://www.swrcb.ca.gov/ust/training/index.html>

## **Office of Emergency Services**

### **Organizational Duty Roster**

OES has compiled a document that includes organizational and contact information; it is attached for your reference and will be posted on the Unified Program website.

**The Unified Program Section is interested in your comments and suggestions regarding the monthly newsletter. Please provide comments and suggestions to Anie Wilson at (916) 327-9559 or [awilson@calepa.ca.gov](mailto:awilson@calepa.ca.gov).**

# UNIFIED PROGRAM TRAINING

Presented by the State of California, Department of Toxic Substances Control

## HAZARDOUS WASTE CLASSIFICATION TRAINING

**Course Description:** This one-day course familiarizes hazardous waste generator inspectors with the hazardous waste classification requirements in California. Participants learn how to determine whether a waste is identified as a hazardous waste. Topics to be covered include the hazardous waste identification listings and criteria, exclusions, test methods for measuring the characteristics of wastes, resources and information available to assist in classifying wastes, and determining whether a waste is a federally regulated (Resource Conservation and Recovery Act (RCRA)) or a California regulated (non-RCRA) hazardous waste. A brief introduction to the guidance document, Test Methods for Evaluating Solid Waste, Physical/Chemical Methods (SW-846) and its relationship to the waste classification, including the document's relevance to sampling and statistical methods will also be discussed. Designed for DTSC and CUPA staff involved in waste classification activities. Class size is limited.

**Course Instructor:** Corey Yep, Senior Hazardous Substances Scientist DSTC

**Who Should Attend:** Personnel from DTSC and CUPAs who need to understand Waste Classification.

**Course Level/Prerequisite:** Beginning/None

**Registration Fee:** There is no fee for attending the trainings, however space is limited so pre-registration is encouraged at least one week prior to the training date.

**Time:** All trainings begin at 9:00 a.m. and conclude at 4:30 p.m., with registration starting at 8:30 a.m.

### Course Dates, Locations and Times:

**Date:** JUNE 11, 2003

**Location:** FALLBROOK, 341 Heald Lane, Eucalyptus Room

**Date:** JUNE 24, 2003

**Location:** MADERA, 216 West 6th Street, Conference Room

**Date:** JULY 15, 2003

**Location:** BERKELEY, 700 Heinz, Auditorium 1 & 2

### To Register:

Visit <http://www.cce.csus.edu/cts/dtsc/index.htm> and register online, or complete the following registration form, and fax or mail to:

☐ JULY 15, 2003, Berkeley

**There is no enrollment fee, however space is limited. Pre-registration is strongly recommended!**

# UNIFIED PROGRAM TRAINING

Presented by the State of California, Department of Toxic Substances Control

## UNIVERSAL WASTE RULE TRAINING

**Course Description:** This course familiarizes participants with the basic rules and requirements of the Universal Waste Rule. Universal wastes include fluorescent lighting tubes, most batteries, electronic products including cathode ray tubes (CRTs), aerosol cans, and a variety of mercury-containing products. Every business and household generates some of these wastes. With the huge volumes of these items generated and the overwhelming number of generators, the U.S. EPA and the California Department of Toxic Substances Control (DTSC) were compelled to develop entirely new rules for managing universal waste. These rules differ a great deal from the familiar hazardous waste standards but are expected to be more successful in diverting universal waste to proper hazardous waste recycling or disposal. Course participants learn which wastes are universal wastes and how to properly manage them. Provisions specific to California's rule are examined. Discussion will focus on the permanent regulations now in effect. Enrollment is limited.

**Course Instructors:** Andre Algazi, Charles Corcoran, Mike Horner, Nabil H. Yacoub, DTSC

**Who Should Attend:** Personnel from DTSC and CUPA who need to understand the Universal Waste Rule regulations.

**Course Level/Prerequisite:** Beginning/None

**Registration Fee:** There is no fee for attending the trainings, however space is limited so pre-registration is encouraged at least one week prior to the training date.

**Time:** All trainings begin at 10:00 a.m. and conclude at 3:00 p.m., with registration starting at 9:00 a.m.

### Course Dates, Locations and Times:

**Date:** JUNE 12, 2003  
**Location:** CYPRESS, 5796 Corporate Ave., 1st Floor All Staff Room

**Date:** JUNE 17, 2003  
**Location:** GLENDALE, 1011 North Grandview Ave, Room 5 & 6

**Date:** JUNE 19, 2003  
**Location:** BERKELEY, 700 Heinz, Auditorium 1 & 2

**Date:** JULY 10, 2003  
**Location:** SACRAMENTO, 8800 CalCenter Dr., Rm. A-1-619, 1st Floor

**Date:** JULY 15, 2003  
**Location:** HANFORD, 1400 W. Lacey Blvd. Multipurpose Room
